OUTSTANDING QUALITY

Since 1926, a commitment to quality.

Over a half-century ago, Gene Huot invented and marketed the famous Drill Index, a significant industry breakthrough, and one which has successfully withstood the test of time.

Since the introduction of this remarkable product in 1926, Huot has grown to become one of the most respected names in its field, with a world-wide reputation for quality, innovation and service. This reputation has been achieved through the efforts of three generations of Huot family members and their dedicated work partners who have committed themselves to one goal. Complete customer satisfaction.

The products in this catalog are a reflection of this commitment. Each is designed to effectively and efficiently meet your specific requirements. Each is quality-made to meet the highest international standards of excellence. Only in this way can we earn your complete satisfaction and maintain your continued trust in our products and services.

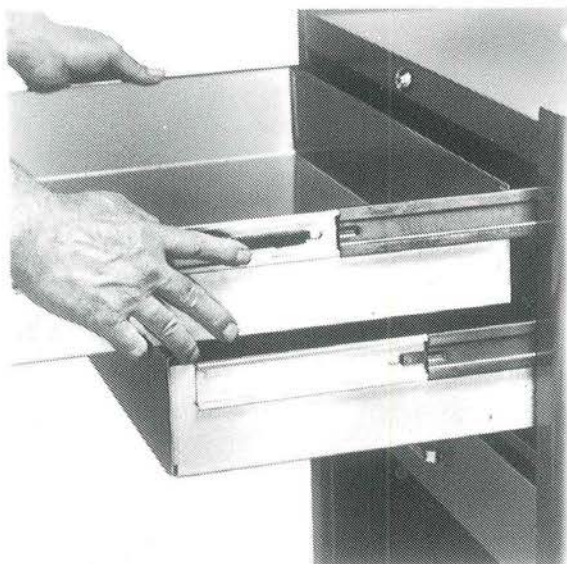

Here's why GLY-DEX® Super Slides are the best for you.

GLY-DEX

HUOT EXCLUSIVE!

Patented, full suspension compound drawer slides move easily and give strong support. Unique, streamlined, structurally sound design assures long, trouble-free service. Exclusive features save you time and money.

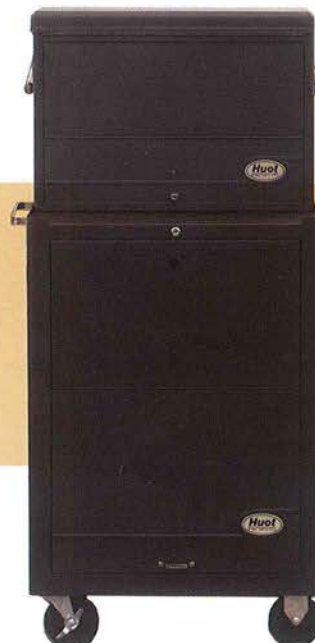

- No more lost time fighting jammed and binding drawers. GLY-DEX® Super Slides have low friction movement for smooth, easy operation.
- Drawers remove instantly with finger-tip pressure. No removal tool needed. This **exclusive** feature enables you to quickly remove the drawer for cleaning, or for rapid transit to the job. A real time-saver in an emergency.
- GLY-DEX® Super Slides are also super strong! Durable, reinforced construction gives twice as much weight support as many other slides. And because they're quality built to last a long time, you save replacement costs in the long run.
- GLY-DEX® Super Slides feature compound full-length suspension to permit maximum use of drawer space.

Compare these time and money-saving features before you buy any chest or cabinet

1. Press drawn one-piece seamless cover for extra strength. Rounded non-catch corners and edges.
2. Heavy throw-bar lock provides maximum security.
3. Drawer panel easily folds up out of the way. (See below.)
4. Staked, full length piano hinges.
5. Press drawn seamless trays have tubular handles for comfort and individual socket compartments for easy access.
6. Strain points reinforced by extra large weld areas.
7. Stainless steel, riveted drawer pulls for longer life.
8. Usable life is doubled with top to bottom, full-length, full width double wall. Casters are mounted directly under inner reinforcing wall.
9. Exclusive patented GLY-DEX® drawer slides will support twice the weight of many other types of slides. Drawers can be quickly and easily removed without tools.
10. Tough Electrostatic plastic powder finish. Choice of colors in most models.
11. Giant-sized chest handle is the largest obtainable.
12. Positive cover stops.
13. Superior quality bolt-on casters come in optional sizes. Locking wheels.
14. Small drawers are cork-lined to give maximum protection to precision tools. Some drawers feature movable dividers.
15. Folding Hyde-Way locking front panel on Porta-Cabs. Center top drawer can be independently locked on some models.

All drawers are fully covered when closed for maximum security.

308 CASTERS

285-4

285-4 WITH
308 CASTERS

#285 Converta-Chest, gloss red or brown wrinkle. The ultimate answer to the need for more tool storage. The Converta-Chest can be used either as a roller cabinet or an extra large top chest. Modular design permits stacking on any standard roller cabinet. Over twice as much storage space as standard 10 and 12 drawer chests which are 11" deep, this unit is 18" deep. Locking Hide-away security panel stores inside cabinet in its own compartment when not in use. Giant-sized bar lifts are chrome plated and polished with matching stainless steel drawer pulls. Precision tool drawers have matching leather grained vinyl drawer front protectors as illustrated. Double width GLY-DEX® slides standard on all drawers. Shown with extra heavy duty 308-5" casters.

Overall: 18"x26½"x24" high (28¼" with 4" casters)

4 drawers: 6⅝"x16"x2" high
